

Benecom Company Cobra Administration

Simplified web-based COBRA Administration

Established in 2006, Benecom Company is a full service Third Party Administer. At Benecom we strive to provide professional administration within a knowledgeable and friendly environment. Whether you're a small, medium or large employer, Benecom can help.

With the everyday burdens associated with proper COBRA compliance we at Benecom work to relieve your company of the concerns associated with tracking and managing COBRA, allowing employers to focus on your active employees' needs. We will handle the entire spectrum of your Cobra Administration. Once someone loses coverage, we will ensure that each qualified beneficiary receives all the necessary correspondence, track timelines, collect and disperse premiums and create monthly reports.

We pride ourselves on being detailed and cost effective to allow you to stay ahead in the marketplace today. Because we listen to our clients' needs and concerns, we have had the opportunity to expand our services to provide innovated real-time full-featured internet-based COBRA administration, at no additional cost to our clients.

By having a full-services internet-based cobra system you will no longer have to fill out paper work for employees and qualified beneficiaries and fax it in; rather, you simply log-in and add your employees and QBs with our simple, easy-to-use, wizards. Because of this On-Demand system you will be able to access all of your employee and qualified beneficiary's information 24 hours a day, 7 days a week.
